

Passirano (BS)

Foundation Year: 2000

Property: Piero Berardi

Producers of wine from Brescia for generations, the Berardi moved to Franciacorta at the turn of the millennium. Acquired the land in the hamlet of Valenzano on the slopes of Monte Delma, they built a winery completely interlocking so as to make it zero impact on the territory and equipping it all the way to effectively manage all stages of production. The experience gained in the world of enology has guaranteed to the company a conscious and virtuous path, oriented towards the production of a Franciacorta DOCG obtained from grapes from vineyards cultivated in organic agriculture.
